Mr. Geo. A. King, formerly agent of the Virginia branch of the Nevada Bank, is in the city, and will go East to-night. Mr. King, although appreciating the existing dullness on the Comstock, does not believe that the country is gone in.

MORE OF TAYLOR.—While J. C. Flood may be the head and front, James G. Fair, the brain, and John W. Mackay, the backbone of the Bonanza firm, no one will question for a moment but what J. Minor Taylor is the "I" of that body of capitalists.—Footlight

FEBRUARY BULLION.—During the month of February the Ophir Mining Company shipped \$5,174 in bullion, and Sierra Nevada \$46,855-58. The total product of the coast for the month was \$1,318,523 55, an increase of \$200,000 over the previous month.

TRIAL JURORS.—Following are the trial jurors empaneled for the March term, to appear Monday, 14th instant, at 10 o'clock A. M.: Miles R. Wing, Henry G. Bath, M. Gilligan, D. Brule, George McLaughlin, L. S. Greenlaw, E. McFadden, A. W. Benson, C. C. Helm, Leon Henriksen, Andrew Wright, Benjamin Hayes, Jacob Straight, M. E. Glover, B. F. Johnson, Nelson Studmeyer, Lyman A. Frisbie, George R. Davis, John A. Risdon, L. L. Siddons, J. G. Meder, Robert Crabb, G. R. Dobbs, Seymour Pixley, George C. Bryson.

MAKES NO IMPRESSION.—The Gold Hill News takes exceptions to the APPEAL's assertion to the effect that there is nothing remarkable about the music of the Royal Middy. The News holds that it approaches grand opera. The composer appears to have been obliged to "approach" several grand operas before he composed it, as most of the music in it, which really amounts to anything, has been appropriated. It is some months since the Royal Middy first made its appearance on this coast, and yet its music has made so little impression that one never hears a single air from it whistles on the streets.

DISTRICT COURT.

The following cases were disposed of yesterday:

Muldoon vs. his creditors; bankruptcy case, in which the Sheriff was appointed assignee of the estate.

Hi Wah vs. Duncan McRae et al.; petition to remove the trial of the suit to Washoe county; denied. It was decided to draw no Grand Jury this term.

AN UNFORTUNATE MISTAKE.—A few nights since an old lady living on Nevada street was considerably annoyed by some irrepressible boys, who, in a spirit of pure mischievousness, rang her door bell several times and immediately vanished around the corner of the house. The old lady finally determined that the fun should not all be on the side of the boys, and accordingly filling a pail with dirty water waited for the boys to renew the attack. She heard steps toward the door, and the instant the bell was touched, sprang forward, and, opening the door quickly, sent a gush of slops in the faces of a gentleman and lady, who had come to make an evening call. Now, the most disagreeable part of the business was that the old lady had been unlucky enough to have some misunderstanding with the callers a few weeks before, and they had called for the express purpose of a reconciliation and clearing up of past differences. On receiving the water in their faces, however, they arrived at the conclusion that they were not welcome, and left the scene in a highly disgusted frame of mind, not to speak of wet clothes. The chances are that no amount of explanation will ever set this matter right.

HOPEFUL SIGNS.—The very fact that everything is so near bed rock is inducing the knowing ones to buy stock. There has been no time for two years past where stock could be bought so advantageously as at present, simply because it is so low. He must be a poor man indeed who cannot take and stow away fifty shares of any stock on the ledge. The people are the most discouraged who bought up in the hundreds. They are the ones who insist that the bottom of the Comstock has caved in. Everything along the big ledge indicates that preparations are being made for a big upward movement. At the bay transactions are increasing and prices slowly stiffening. Work in all of the mines is being held back until the word comes from headquarters for an advance. It is reported in Reno, on the best of authority, that the Bonanza firm has contracted for 200,000 cords of wood. This means business, and inside of a few months there will be lively times all over the State. The man who has stock anywhere on the Comstock or in the Bodie group will do well to hold on to it.

THE PIUTE WAR.—The Woodland Democrat has the following: "Colonel Frank T. Gilbert, historian, who did the writing and compiling for DePue's illustrated History of Yolo County," is at present engaged in writing a history of the State of Nevada for Thompson & West, publishers of State and County histories. Several sections of the history of the Sagebrush State, (those relating to the Indian wars) have appeared in the Carson APPEAL, and are well worth perusal. Colonel Gilbert has a host of friends in this county, and all will be glad to learn of his whereabouts and that he is doing well. He is a very graceful writer, and his 'History of California,' which is found in DePue's work, is pronounced by competent critics to be the most accurate history of the Golden State ever yet published. We wish the Colonel continued success."

BOCCACCIO.—This charming opera was given last night to a delighted audience. The piece is far superior to the "Royal Middy," both in dramatic construction and music. The cast was admirably sustained throughout. Miss Melville as the gay poet and Miss Plaisted as "Fiammette" did some splendid vocal and dramatic work and the comedy element was capital brought out. Tom Casselli as "Lottieringhi," the cooper, with his song was a worthy feature. The finale of the second act received a deserved recognition. The pantomime and the enchanted tree were well appreciated novelties and the audience felt that they had spent their evening advantageously.

CANNING TROTT.—Judge Griswold, of Wadsworth, has been experimenting for a couple of years upon fish-canning. He has erected a steaming establishment, and put up a large number of Truckee trout. After a number of failures, he thinks he now has the true principle, and can preserve the trout for any length of time, retaining all the delicacies of the fish, if not improving the flavor. He is not certain that he can make it profitable, but he thinks he can save fish that are caught in excess of the demand.

JOTTINGS.

The condition of Mrs. Rosser remains unchanged.

Mrs. Tremmor Coffin has returned from California.

John P. Meder returned to Battle Mountain last evening.

Mr. T. R. Hefer's little son Johnny is very ill with croup.

Freight shipments from this point to the southern mines are very light.

The Chinese of this city do not own over \$20,000 worth of improved real estate.

Union Consolidated has levied an assessment of \$1, and Alta one of 50 cents.

Ed. McFadden is doing the local work on the Times, during the absence of Mr. Niles.

The weather indications are that we shall have a heavy, old-fashioned storm before long.

It is now reported that ex-Congressman Daggett will receive a consular appointment.

The lottery bill is not signed yet, and the projectors of the scheme are on pins and needles.

John Hansen, formerly of the Mint, is now a melter in the Grass Valley, Cal., foundry.

It is stated that John Mack will seek an engagement at one of the San Francisco theaters.

J. Ivancovich will return from Europe in the Spring and likely engage in business here again.

Mr. Edward Niles, of the Times, went below last night for a short period of rest and recreation.

Left by sleeper last night: Mrs. Arnot, L. T. Fox, H. W. Rolfe, D. L. Bliss, E. Niles and wife.

Miss Post, of the Melville Troupe, is a sister-in-law of Water B. Blair, a former attache of the Carson Mint.

Two of the fare banks which were started here for the accommodation of the Legislature, have put up their shutters.

L. Morris & Co. have concluded to continue business in this city, having lots of faith in the future prosperity of Carson.

There has been less snow at Lake Bigler this year than for the past ten winters; so says Hank Monk, the most reliable of men.

John Ryno, at one time doing business in this city, and now located at Virginia, wants to be released from his liabilities by a legal process.

ARRIVALS by yesterday afternoon's Bodie stage: V. H. Paase, C. W. Curtiss, Mrs. A. Gumbelia, J. Pearce, Mrs. Cooper, W. M. Curtiss, H. Ward, M. Tovey, E. Noiden.

Doc Benton's "Glen Alpine" is taking the place of seler. It is a more palatable beverage, and a sure remedy for indigestion and other nervous complaints arising from the stomach.

The condition of County Commissioner Cheney is still a very precarious one. There is very little chance for his recovery; yet, while there is life all hope must not be abandoned.

Something should be done without delay to improve the ventilation of the Opera House. During every performance nothing but complaints are heard from the audience upon this subject.

DEPARTED by yesterday morning's Bodie stage: Geo. McCartney, J. P. Winnie, M. Sigel, H. G. Biards I, Mrs. L. J. Crook, G. W. Eunich, W. M. Casey, wife and daughter, Fred Horatt.

Persons who have left job work at the APPEAL office during the past two months and grown weary of waiting for it are notified that before many days the work will be delivered.

The wedding of Mrs. Louise Shrieves and Mr. O. Iver Roberts takes place at the Catholic Church this evening. The APPEAL tenders the lady and gentlemen its best wishes.

There is an old Mexican woman of ill repute in this city, who has, during her checkered career, accumulated, and is now the possessor of real estate, bonds and money estimated at over \$150,000.

Last night, Doolin, the Demosthenes of the Base Range, left the city for the sulphurous home in Eureka. His ringing defence of the aborigines will never be forgotten in this section of the country.

Bert Davidson, formerly clerk with Koppel & Platt, who left here some months since quite ill, is again very sick at the residence of his parents at San Jose. It is scarcely believed that he will recover.

Col. O. P. Keyes went to Reno last night to meet his wife and son, who are en route for San Francisco from the East. Perhaps the Colonel may induce them to stay over in Carson for a few days. Mrs. Keyes was at one time one of the belles of San Francisco's good society. She is the daughter of Col. Lightner, formerly Superintendent of the Ray and Ely mine, a gentleman well known all over this coast.

The Union saloon was yesterday attached by Cartan, McCarthy & Co., for \$1,226 97, and by Harris Bros. for \$70 10. It is believed that the matter can be adjusted at once, and the business will continue as usual.

Ormsby House Arrivals: W. C. Love, Sac.; Mrs. Willis, S. F.; B. A. Miller, Bridgeport; J. C. McNamahan, Reno; Mrs. Greenbaum, Aurora; V. H. Paase, Aurora; W. N. Curtis, Aurora; J. M. Moressey, S. F.; M. Tovey, Bridgeport; Geo. A. King, Virginia.

Dr. Hogan, the gentleman who is about to start a new Greenback paper in Reno, was in the city yesterday. It is proposed to make the paper a weekly, and as the Doctor is a man who knows how to very clearly express his views, the new journalistic venture will doubtless attain a wide circulation.

The Times charges Miss Melville with having saved her high notes and good acting for a Comstock audience. It is one of the privileges of an American prima donna to save her high notes for such toques as suit her best. No live artist would fail to take advantage of so distinguished a privilege.

It would surprise any one outside of a reporter, to know how much diplomatic talent there is in this city. There are at least five men here to our certain knowledge, who aspire to ministerial positions. None have, however, as yet, announced themselves as candidates to represent Uncle Sam at the Court of St. James. That is rather modest.

Hank Monk prides himself upon the fact of having been a smuggler from Canada, before engaging in the respectable occupation he now follows. His smuggling experience is one of greater reality than his famous suggestion to the lamented Horace Greeley. Hank followed the hazardous business of smuggling between Ogdenburg, N. Y., and Canada, for several years, with considerable success, prior to coming to this coast.

THE KALLOCH TRIAL.

SAN FRANCISCO, March 8.—In the Kalloch trial yesterday afternoon witness Barry was arrested on a charge of perjury. E. T. McLean, the witness who last week reported that he had been tampered with, makes affidavit that he had been offered a bribe to testify that he heard six shots. District Attorney Smoot asked that Chas. Davis, Isaac Bagges and Mr. Howe, the parties named in the affidavit, be arrested and brought before the Court for a hearing. The Judge took the matter under advisement.

To-day Gustave Raschki testified to hearing six shots. Clement Bennett, a photographer who reported the preliminary examination of Kalloch, was put on the stand to prove a discrepancy in the testimony of the Chronicle clerk, Dreyfpolcher, on that occasion and the present.

Counsel for the defendant entered a protest against the alleged attempts of the prosecution to intimidate witnesses for the defense by having them arrested on charges of perjury. Barry, who was arrested yesterday on such a charge and released on bail, is *non est* to-day.

IMPURE BREATH.

Among all the disagreeable consequences that follow the decay of the teeth, an impure breath must be the most mortifying and unpleasant to its possessor, and it is the most inexcusable and offensive in society, and yet the cause of it may easily be removed by cleansing your teeth daily with that justly popular dentifrice, Fragrant SOZODONT. It purifies and sweetens the breath, cools and refreshes the mouth, and gives a pearl-like appearance to the teeth. Gentlemen who indulge in smoking should cleanse their teeth with SOZODONT, as it removes all unpleasant odors of the weed. Ask your druggist for it.

ROLLER SKATING.

A ROLLER SKATING RINK IS NOW

Open at the Carson Theater.

The best of order will be maintained and no improper characters will be admitted. The ladies and gentlemen of Carson are respectfully invited to patronize the rink and engage in the healthful and enjoyable exercise of roller skating.
